* Performance Night

Albert Einstein, the famous scientist, said:

“Being a lover of freedom, when the revolution came in Germany, I looked to the universities to defend it. But no! they immediately were silenced. Then I turned to the great editors who in days gone by proclaimed their love of freedom, but they too were silenced in a few weeks. Only the Church stood squarely across the path of Hitler’s campaign for the suppression of truth. What I once despised - the Church - I now praise unreservedly.

Gentlemen

by Dr. George Alquist, Jr

A gentleman does not take huge mouthfuls of anything.

A gentleman does not make noises while eating.

A gentleman always chews with his mouth closed.

Teacher Tips

For the engine of learning to begin to turn, there must be a fire built in the furnace of inspiration. It is this furnace that fuels, drives and motivates the student to gain or acquire knowledge and truth.

Thots for Parents

Proverbs 19:18 “*Chasten thy son while there is hope, and let not thy soul spare for his crying.*”
